

Local Mission Fund

This fund, also known as the pastor's discretionary fund, is used as needs arise. A special offering is taken the first Sunday of every month which goes completely to this fund.

Non-Food Commodities

With the number of food banks in the community helping feed those in need, the church realized the need for supplies that fall out of the realm of food. Thus was born the Non-Food Commodities closet. Each quarter, the closet opens to those over 65 and all veterans. Here they can get supplies such as toilet paper, bleach, laundry soap, and personal hygiene products.

Non-Cancer Support

This church-based fund is used to help people with transportation costs to and from medical appointments. There is ample support within the community for other types of help related to cancer treatment. This fund enables others needing support to find the help they so desperately are looking for.

Medical Equipment Closet

The church maintains a loan program for helping with temporary medical equipment needs. Here you can find items such as crutches, wheelchairs, potty chairs, and raised toilet seats. There is no cost to those who need to borrow.
